

**Platt and Maloney High School  
Summer Reading Grades 9-12**

Dear student,

Summer vacation is a great time to explore topics that you've always been interested in or take a chance on something new. This summer we want you to do just that - read!

- **Select a book that interests you. Books are available in public libraries, local bookstores, and from the library media centers at Platt and Maloney. Consider leaving school with a book for summer reading. The important thing is that you read!**
- **Think of a creative way to portray the book or books that you have read. Some ideas are:**
  - **Create a poster or album cover depicting your favorite part of the book**
  - **Write about the book in a journal or write a journal from the perspective of the main character**
  - **Create a video movie trailer about the book**
  - **Create a visual (drawing, painting, sculpting, etc.) that represents a theme from the book and write a short explanation of your visual**
  - **Create a Google Slide that summarizes the main characters, plot, and theme of your book**
  - **Create a project of your own design that highlights major themes in the book.**

**Check these sites for some ideas of books that might interest you:**
